

GETVISIBILITY

Product Sheet

THE WORLD'S MOST
EFFECTIVE DATA
GOVERNANCE PLATFORM
IN A SINGLE SOLUTION

getvisibility.com

4 Steps to Data

Protection & Compliance

GETVISIBILITY

DISCOVERY

Getvisibility quickly scans and discovers unstructured data and documents across an organisation's estate.

01

ASSESSMENT

Getvisibility highlights the risks associated with the discovered documents.

02

DATA IN MOTION CLASSIFICATION

04

03

REMEDIATION & INTEGRATION

Getvisibility quickly classifies all intellectual property and sensitive documents and integrates with Forcepoint, McAfee, Microsoft A.I.P. and others.

ONGOING DATA MANAGEMENT

Getvisibility provides an agent for laptops and desktops that will recommend sensitivity levels using A.I.; block and log attempt to expose or put documents at risk.

GETVISIBILITY

GETVISIBILITY Focus

Utilises the latest in Deep Learning AI, a lightweight enterprise architecture that accelerates Cloud adoption and Data Loss Prevention capabilities.

Allows companies to quickly visualise their data footprint, where new and changing data risks have surfaced thus allowing for proactive data management and security.

Can process and understand unstructured information as it is being created. The AI models have been adapted for the specific data structures on a per industry basis.

Actively solves data governance issues in large companies in a number of different industries including Pharmaceutical, FMCG, Gaming and Finance.

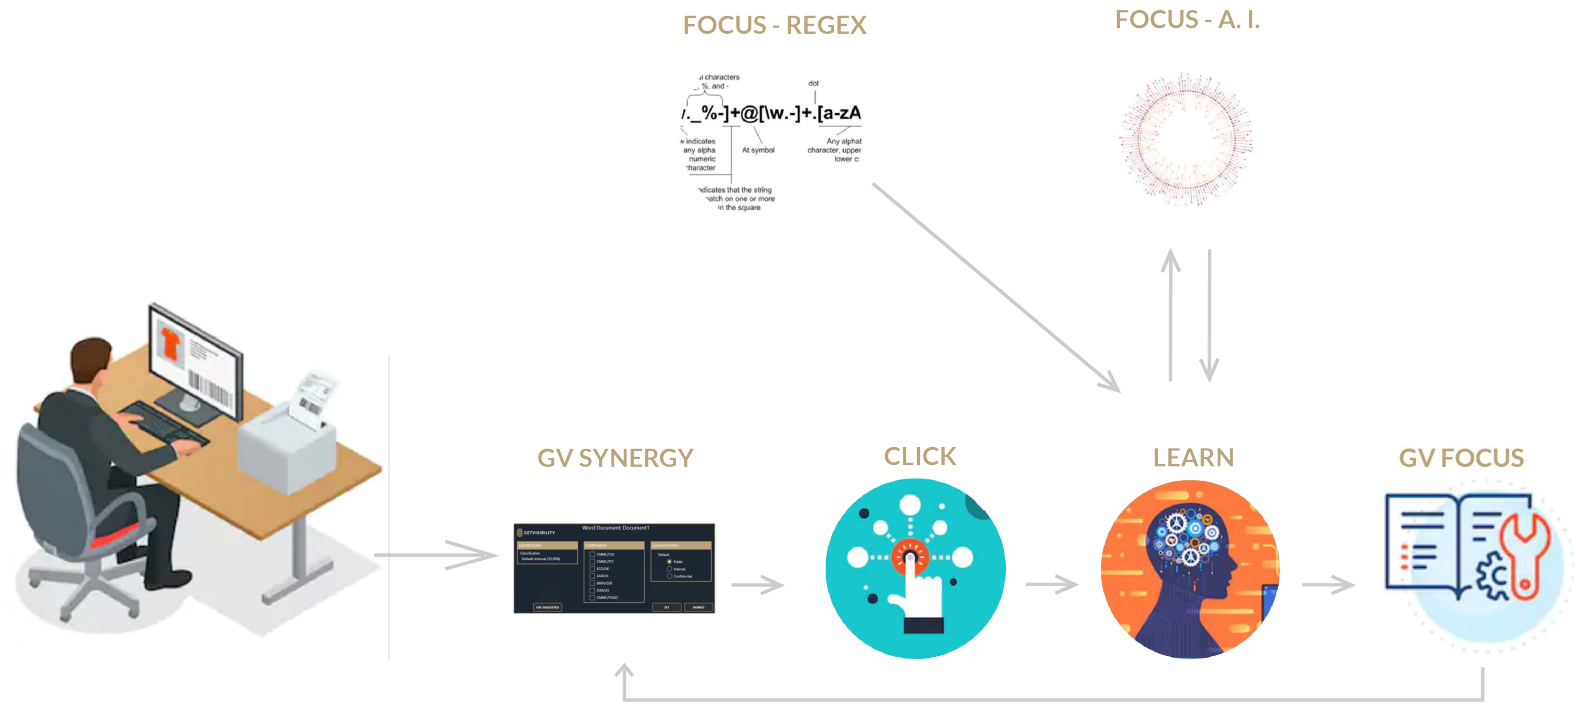

Getvisibility's machine learning models, application source code, and other intellectual property produced by Getvisibility is protected as trade secret.

Sensitive	HR Documents	Financial Documents	Legal Documents	Technical Documents	Business Documents	Marketing Documents
Resume	Accounting form	Agreement/Contract	Correspondence (Technical)	Asset Inventory	Market Research/Planning	
Correspondence (Employee)	Audit	Correspondence (Legal)	Presentation	Business plan		
Employee record	Banking form	NDA form	Proposal	Customer/Vendor Record		
Incident report	Financial agreement/Contract	Patent	RFP/RFI	Internal document		
Performance review	Invoice/Purchase order		Specification/Blueprint	Project planning		
Recruitment	Quotation/Pricing					
Timesheet						
Non-Sensitive	HR Documents	Financial Documents	Legal Documents	Technical Documents	Business Documents	Marketing Documents
Browsing history			Certificate/Permit	Code	Logistic data	Advertisement/Product description
			License agreement	Configuration	Policy/Procedure	Logo
			Terms/Conditions	Guide/Manual		Press Release
			Note/Leg			Written content/Draft
			Report			
						White paper/Public Standard

Getvisibility Focus

- Endpoint agents
- Augmented manual classification
- Email blocking
- Single VM deployment
- Multiple file server sources
- Active directory/LDAP
- ML kernel
- Audit logging and reports

Getvisibility Synergy Pro

- Lightweight agent
- Windows desktops
- Supports Office apps
- Visual markings
- ML suggestions

- Metadata tags added
- DLP integration enabled
- Generates central audit log and reports
- Highly configurable

CORE FEATURE BREAKDOWN

	Synergy Lite	Synergy Pro Data classification for teams	Enterprise Data Classification at scale across the enterprise and powered by AI
Email DLP on Classification	●	●	●
Live Classification of Data In Motion	●	●	●
Watermarking	●	●	●
Headers and Footers in Microsoft Office	●	●	●
One GRC Compliance Configuration	●	●	●
Customer Support Via Email, Phone or Live Chat	●	●	●
Policy Configuration	●	●	●
Windows Explorer Classification		●	●
Sharepoint		●	●
Insider Threat Monitoring		●	●
Risk Assessments		●	●
IAM		●	●
Self Service Data QA		●	●
On-Demand or Scheduled Scans			●
Data R.O.T Analysis			●
Comprehensive & User-Friendly Visualisation of Classified Data Files			●
Reporting and Remediation			●
